## From the West

Brethren, do you remember the 24-inch gauge as one of our working tools and was told it represented 24 hours in a day. Let's break that down to 5-days at 40 hrs per week. That would come out to approximately 1,920 hours/year of available time. Now, consider your lodge meets once a month for 2 hours/meeting. That means about 24 hours/year. But if you miss installations that would subtract say 6 hours from that time. So,  $24 - 6 = 18\text{hr/yr}$  at a minimum to serve your lodge and 24 hours at a maximum! I can't understand why that small commitment of time impacts your attending lodge, it just takes a little planning and time management. Considering that your dues are expensive (\$150 and probably will increase) wouldn't it make sense to get something out of that cost for you. If you are staying away because you are intimidated or maybe you forgot the process and afraid of being embarrassed (that isn't going to happen) ... Call me or email me (my contact information is listed in this publication). I will personally visit with you and instruct you in a very simple, private manner and in short time. We need you in the seats along the sideline. We need you to participate with us in events. We need you to help us maintain your lodge. Simply put... **WE NEED YOU AND CAN HELP YOU COME BACK TO ENJOY YOUR MEMBERSHIP. Surely 18 hours/year at a minimum is not an insurmountable burden of time for you.**

Brethren, greetings from the South, I would like to invite you, your family and friends to join us at our October 4<sup>th</sup> regular communication. This is "move-up" night and we will be conferring the Fellow Craft degree on Brother Roberto Moran. Dinner will start at 6:00 pm. Our Regular communication will begin, promptly at 7:00 pm. I beseech you to join us for fellowship and companionship to begin at 5:00 pm.
